Mitsubishi Estate Logistics REIT Investment Corporation

Joined Mitsubishi Estate Co. Ltd. in 1997

Has extensive experience in Investment Management business in Mitsubishi Estate Group, including;

2015 – 2012: Core/ core+ fund management business in New York-based Rockefeller Group, Boston-based TA Realty, and Mitsubishi Estate New York

2012 – 2007: Private fund business in Mitsubishi Jisho Investment Advisors, the Asset Management Company

Dear Fellow Unitholders,

We are pleased to represent our Ninth Fiscal Period Semiannual Report of Mitsubishi Estate Logistics REIT Investment Corporation (MEL). We would like to take this opportunity to express our heartfelt appreciation to all of our unitholders for supporting MEL.

During the fiscal period ended February 28, 2021, despite the global uncertainties caused by COVID-19 pandemic, we continued to maximize our unitholder value through disciplined acquisitions. In September 2020, we completed our third follow-on offering and successfully raised 18.3 billion yen of capital including over-allotment. With the proceeds and debt financing, we acquired three sponsor-developed properties (Logicross Osaka (initial 60% co-beneficiary interest), Logicross Nagoya Kasadera (initial 60% co-beneficiary interest) and LOGIPORT Osaka Taisho) (remaining 17.5% co-beneficiary interest) and two properties (MJ Logipark Kazo 2 and MJ Logipark Sendai 1) that were sourced by us the Asset Manager, totaling 28.4 billion yen. As a result, our portfolio size has grown to 142.1 billion yen.

With these steady growth, MEL's operating revenues was 4,203 million yen, net income was 2,073 million yen and distributions per unit, including the surplus cash distributions (SCD), was 6,619 yen, which strongly exceeded our original forecast of 5,968 yen.

We maintained an extremely high average occupancy of more than 99 percent and our rents continued to grow. Despite the current COVID-19 pandemic, our rent growth was high 8.5% on a weighted average nominal basis, and have achieved rent growth for six consecutive periods. Also, we have achieved HYBRID internal growth other than rent revisions through distinctive initiatives such as receipt of Green Lease fee based on Green Lease contract, increasing parking space and installation of solar panels on the rooftop. Capturing this momentum, we intend to strive to accomplish this HYBRID internal growth.

In terms of HYBRID external growth, we completed our fourth follow-on offering continued by the previous offering in August last year. With the proceeds and debt financing, we acquired three sponsor-developed properties (Logicross Narashino, Logicross Osaka (remaining 40% co-beneficiary interest) and Logicross Nagoya Kasadera (remaining 40% co-beneficiary interest)) and two properties (MJ Industrial Park Kobe (Land) and MJ Industrial Park Chiba-Kita (Land)) that were sourced by us the Asset Manager, totaling 28.2 billion yen. These acquisitions embody our HYBRID external growth. As a result, our portfolio size has grown to 170.4 billion yen. Accordingly, combining our previous offering, we realized accretion of 16.2 percent distributions per unit (DPU) growth on a stabilized basis and 10.7 percent growth for net asset value (NAV) per unit annually.

We further strengthened our balance sheet backed by our high credibility of our sponsor, Mitsubishi Estate.

In April 2021, we have issued our first bond as a Green bond at a favorable condition with a term of 15 years where it is difficult to borrow from banks. Our remaining debt duration is 5.6 years and all in debt cost is 40 basis point. As of the end of the reporting fiscal period, our loan-to-value ("LTV") ratio was 31.4 percent, and as a reflection of the offerings and acquisitions, our LTV ratio is forecasted to be 32.4 percent at the end of the fiscal period ending February 28, 2022 which gives us enough room to further grow.

As for the ESG, we have participated in the 2020 GRESB Real Estate and have been awarded the highest "5-star" rating and the prestigious "Green Star" rating. MEL was also recognized as the "Global Listed Industrial Sector Leader," ranked No. 1 globally, demonstrating its outstanding performance in ESG. MEL strives to invest in environmentally friendly logistics facilities, and will continue to focus on maximizing the energy efficiency of our properties, as well as contribution actions to the local communities.

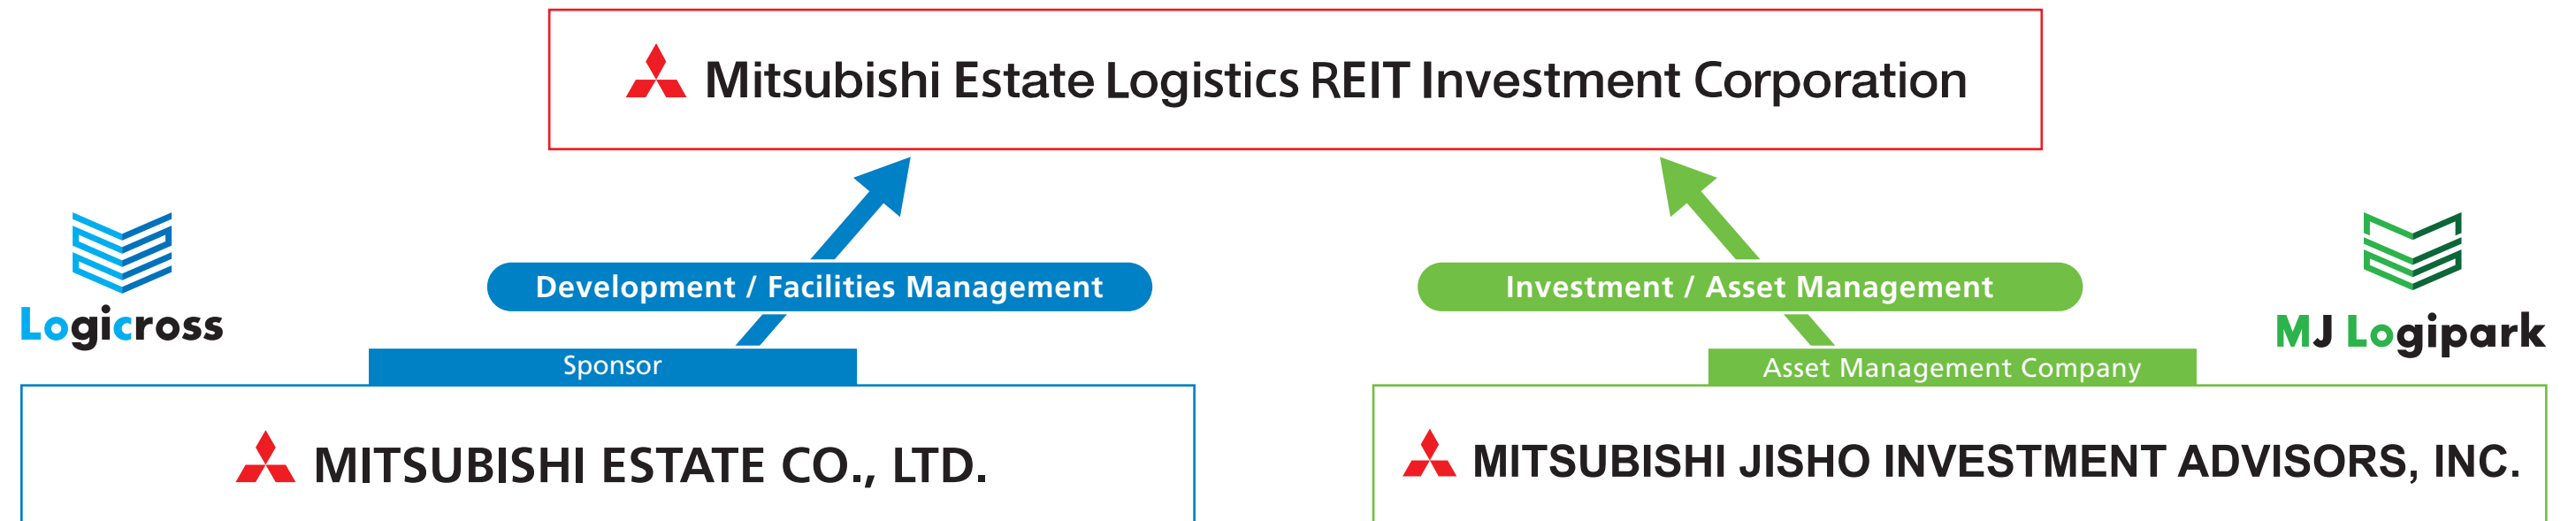

Looking forward, we will endeavor to maximize our unitholder value by growing both externally and internally through HYBRID model and follow our management policy, "Three Pillars."

We sincerely appreciate your continued support of MEL and the Mitsubishi Estate Group and look forward to reporting our further progress in the months and years ahead.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND BASIS OF PRESENTATION

a) Organization

Mitsubishi Estate Logistics REIT Investment Corporation (hereinafter “MEL”) was established on July 14, 2016 under the “Act on Investment Trust and Investment Corporation” (hereinafter the “Investment Trust Law”), and acquired 1 property worth 5,400 million yen on September 29, 2016, and was listed on the REIT Securities Market of the Tokyo Stock Exchange on September 14, 2017, with Mitsubishi Estate Co., Ltd. (hereinafter “MEC”), one of the largest comprehensive developers in Japan, acting as a sponsor. MEL focuses on investing in logistics facilities primarily in the Tokyo Metropolitan Area. MEL is externally managed by a licensed asset management company, Mitsubishi Jisho Investment Advisors, Inc. (hereinafter the “Asset Manager” or “MJIA”). On September 13, 2017, MEL issued 198,000 new units through a public offering and raised approximately 49,678 million yen. Those units are listed on the J-REIT section of the Tokyo Stock Exchange. MEL acquired 7 properties (aggregate acquisition price: 65,479 million yen) on September 14, 2017 following its listing and acquired 2 properties (aggregate acquisition price: 12,340 million yen) on September 3, 2018. Furthermore, MEL acquired one additional property on September 2, 2019, and additional four properties on October 9, 2019, total of five properties worth aggregate acquisition price of 30,568 million yen. In addition, MEL acquired five properties worth aggregate acquisition price of 28,407 million yen during the reporting fiscal period. As of February 28, 2021, MEL held in the form of beneficiary right in trust in 19 properties (aggregate acquisition price: 142,194 million yen), and the occupancy rate remained high at 99.7% as of the end of the reporting fiscal period.

b) Basis of Presentation

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Law, the Japanese Financial Instruments and Exchange Act and their related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter the “Japanese GAAP”), which are different in certain respects as to application and disclosure requirements from International Financial Reporting Standards. The accompanying financial statements have been reformatted and translated into English from the financial statements of MEL prepared in accordance with Japanese GAAP, and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Act. In preparing these financial statements, certain reclassifications and modifications have been made to the financial statements issued domestically in order to present them in a format which is more familiar to readers outside Japan. As permitted by the regulations under the Financial Instruments and Exchange Act of Japan, amounts of less than one thousand yen have been omitted. As a result, the totals shown in the accompanying financial statements do not necessarily agree with the sums of the individual amounts. MEL’s fiscal period is a six-month period that ends at the end of February and August of each year. MEL does not prepare consolidated financial statements as it has no subsidiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and cash in trust, floating deposits, deposits in trust and short-term investments that are very liquid and realizable with a maturity of three months or less when purchased and that are subject to insignificant risks of changes in value.

b) Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment, including property and equipment in trust, is calculated by the straight-line method over the estimated useful lives as follows:

Buildings	2-63 years
Structures	10-58 years
Machinery and equipment	8-12 years
Tools, furniture and fixtures	4-15 years

c) Intangible Assets

Intangible assets are stated at cost. Amortization of intangible assets, including intangible assets in trust, is calculated by the straight-line method over the estimated useful lives.

d) Long-term Prepaid Expenses

Long-term prepaid expenses are amortized by the straight-line method.

e) Organization Expenses

All organization expenses are amortized over five years using straight-line method.

f) Investment Unit Issuance Expenses

The full amount of investment unit issuance expenses is recorded as expense when incurred.

g) Beneficiary Rights in Trust

As to beneficiary rights in trust, all accounts of assets and liabilities for assets in trust as well as the related income generated and expenses incurred are recorded in the relevant balance sheet and statement of income and retained earnings accounts. Important line items included in accounting for financial assets and liabilities in the MEL's balance sheet are cash and deposits in trust, buildings in trust, structures in trust, machinery and equipment in trust, tools, furniture and fixtures in trust, land in trust and tenant leasehold and security deposits in trust.

h) Taxes on Property and Equipment

With respect to property taxes, city planning taxes and depreciable asset taxes, of the tax amount assessed and determined, the amount corresponding to the relevant fiscal period is accounted for as rental expenses.

Of the amounts paid for the acquisitions of real estate properties or beneficiary right in trust of real estate, the amount equivalent to property taxes is capitalized as part of the acquisition cost of the relevant property instead of being charged as an expense.

i) Consumption Taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

- “Accounting Standard for Revenue Recognition” (Accounting Standards Board of Japan (ASBJ) Statement No. 29 issued on March 31, 2020)

- “Implementation Guidance on Accounting Standard for Revenue Recognition” (ASBJ Guidance No. 30 issued on March 31, 2020)

- “Implementation Guidance on Disclosures about Fair Value of Financial Instruments” (ASBJ Guidance No. 19 issued on March 31, 2020)

(1) Overview

The International Accounting Standards Board (IASB) and the Financial Accounting Standards Board (FASB) in the United States have jointly developed comprehensive accounting standards for revenue recognition and issued “Revenue from Contracts with Customers” (IFRS 15 (IASB) and Topic 606 (FASB)) in May 2014. Given the situation where IFRS 15 will be applied from fiscal years beginning on or after January 1, 2018 and that Topic 606 will be applied from fiscal years beginning after December 15, 2017, the ASBJ has developed comprehensive accounting standards for revenue recognition and issued them together with the implementation guidance. The basic policy of the ASBJ when it developed the accounting standards for revenue recognition was to specify the accounting standards, incorporating the basic principles of IFRS 15 as a starting point, from the perspective of comparability between financial statements, which is one of the benefits of maintaining compatibility with IFRS 15. The basic policy also stipulates that if there is an item to which consideration should be given, such as practices that have been conducted thus far in Japan, alternative treatments will be added to the extent to which comparability is not impaired.

(2) Scheduled date of application

The accounting standards will be applied from the beginning of the fiscal period ending February 28, 2022.

(3) Impact of applying the accounting standards

The impact of applying “Accounting Standard for Revenue Recognition” and its guidance on the financial statements is currently under evaluation.

- “Accounting Standard for Fair Value Measurement” (ASBJ Statement No. 30 issued on July 4, 2019)

- “Accounting Standard for Financial Instruments” (ASBJ Statement No.10 issued on July 4, 2019)

- “Implementation Guidance on Accounting Standard for Fair Value Measurement” (ASBJ Guidance No. 31 issued on July 4, 2019)

- “Implementation Guidance on Disclosures about Fair Value of Financial Instruments” (ASBJ Guidance No. 19 issued on March 31, 2020)

(1) Overview

The IASB and the FASB have established detailed guidance regarding fair value measurement (IFRS 13 “Fair Value Measurement” (IASB) and Topic 820 “Fair Value Measurement” (FASB)). The ASBJ repeatedly considered the guidance regarding fair value of financial instruments and disclosure in order to improve the comparability with such international accounting standards, and issued “Accounting

Standard for Fair Value Measurement” and “Implementation Guidance on Accounting Standard for Fair Value Measurement.”

As the basic policy of the ASBJ for the development of accounting standard for fair value measurement, the ASBJ basically adopted all provisions of IFRS 13 by using the unified measurement method, from the point of view of improving the comparability of financial statements among domestic and foreign companies. In addition, considering the actual practices that have been executed in Japan, other treatments for individual items are established within the scope not to impair comparability between the financial statements.

(2) Scheduled date of application

The accounting standards will be applied from the beginning of the fiscal period ending February 28, 2022.

(3) Impact of applying the accounting standards

The impact of applying the “Accounting Standard for Fair Value Measurement” and its guidance on the financial statements is currently under evaluation.

- “Accounting Standard for Disclosure of Accounting Estimates” (ASBJ Statement No. 31 issued on March 31, 2020)

(1) Overview

Paragraph 125 of International Accounting Standard 1 (IAS 1), “Presentation of Financial Statements,” (issued by the IASB in 2003) requires disclosure of information about the “assumptions the entity makes about the future, and other major sources of estimation uncertainty.” In this regard, there has been a request that the major sources of estimation uncertainty should be disclosed in the notes to financial statements under Japanese GAAP to provide useful information to users of financial statements. In response to this request, the ASBJ developed and issued “Accounting Standard for Disclosure of Accounting Estimates.”

The Accounting Standards Committee's basic policy for the development of this standard is not to expand individual notes, but to indicate the principles (disclosure purposes). Specific disclosures are to be determined by corporates based on the purpose of disclosure, and are to be developed based on the rules set forth in IAS No. 1, Item 125.

(2) Scheduled date of application

The accounting standard will be applied from the end of the fiscal period ending August 31, 2021.

- “Accounting Standard for Accounting Policy Disclosures, Accounting Changes and Error Corrections” (ASBJ Statement No. 24 issued on March 31, 2020)

(1) Overview

The ASBJ's Standards Advisory Council recommended that the ASBJ consider enhancing disclosures for notes relating to “accounting policies and methods adopted in the cases where the relevant accounting standards were not clear.” In response to such recommendations, the ASBJ issued the revised “Accounting Standard for Accounting Policy Disclosures, Accounting Changes and Error Corrections.”

To improve the note information concerning “The accounting policies and methods which have been adopted in the cases where the relevant accounting standards are not available”, the provision of Financial Accounting Principles (note 1-2) will be followed to ensure consistency with actual practices when the relevant accounting standards exist.

(2) Scheduled date of application

The accounting standard will be applied from the end of the fiscal period ending August 31, 2021.

6. FINANCIAL INSTRUMENTS

a) Overview

(1) Policy for Financial Instruments

MEL procures funds for the acquisition of assets and repayment of debt mainly through bank loans or the issuance of new investment units.

In borrowing funds, MEL takes consideration in interest rate trend, debt cost, floating or fixed interest rate, borrowing period and repayment date.

In the case of borrowing, the lender shall be limited to qualified institutional investors as stipulated in Article 2, Paragraph 3, Item of the Financial Instruments and Exchange Act of Japan (limited to institutional investors prescribed in Article 67-15 of the Taxation Special Measures Law), with in principle no collateral / no guarantee. However, MEL may provide assets as collateral in consideration of financing environment and economic conditions. In addition, in order to flexibly procure the necessary funds related to MEL's operation such as property acquisition and repayment debt financing, MEL may enter into the overdraft agreements, commitment line agreements or conclude the reserved agreements.

MEL generally invests surplus funds in bank deposits, considering the safety and liquidity of the investment and also reflecting the market environment and cash positions of MEL itself. MEL enters into derivative transactions solely for the purposes of reducing risks of rising interest rates related to financings and other types of risks. MEL does not use derivative transactions for speculative purposes. Not applicable for the reporting period.

(2) Type of Financial Instruments, related Risks and Risk Management System

Bank loans are mainly made to procure funds for acquisition of properties, repayment of bank loans. Although MEL is exposed to liquidity risks upon repayment, by diversifying the maturities and lending institutions, securing liquidity of cash in hand and managing such liquidity risks by preparing and monitoring cash flows projection, such risks are maintained under control. In addition, some loans bear floating interest rates and are exposed to potential risks of rising interest rates. MEL attempts to mitigate such risks on its operations by maintaining a conservative loan to value ratio and increasing the ratio of long-term fixed interest rate loans.

The security deposits which MEL has received from the tenants are exposed to liquidity risk due to cancelation of lease agreement before the maturity date. In the case of trust beneficiary interest in real estate, MEL secures safety by accumulating a portion in the trust account, and in the case of real estate, leasehold rights of real estate, and superficies, MEL secures safety by accumulating a portion in bank savings account or bank time deposit account. Moreover, MEL ensures safety by accurately tracking the timing of the tenant move-ins and outs and anticipating the fund demand utilizing historical data.

(3) Supplemental Explanation Regarding the Estimated Fair Values of Financial Instruments

The fair value of financial instruments is based on their quoted market price, if available. When there is no quoted market price available, fair value is based on a price that is reasonably estimated. Since various assumptions and factors are reflected in estimating the fair value, different assumptions and factors could result in a different value.

b) Estimated Fair Value of Financial Instruments

The book value, fair value and differences between the values as of February 28, 2021 and August 31, 2020 are as follows:

Financial instruments for which the fair value is extremely difficult to estimate are excluded from the following table (see Note 2 below).

		Thousands of yen		
		As of February 28, 2021

Total liabilities	¥	47,574,000	¥ 47,685,978	¥ 111,978

		Thousands of yen		
		As of August 31, 2020		
		Book value	Fair value	Difference
(1) Cash and deposits	¥	3,504,701	¥ 3,504,701	¥ -
(2) Cash and deposits in trust		4,389,936	4,389,936	-

(4) Long-term loans payable due within one year		-	-	-
(5) Long-term loans payable		34,424,000	34,648,574	224,574
Total liabilities	¥	35,374,000	¥ 35,598,574	¥ 224,574

(Note 1) Methods to estimate fair values of financial instruments

(1) Cash and deposits and (2) Cash and deposits in trust (3) Short-term loans payable

Due to the short maturities, the book value of these instruments is deemed a reasonable approximation of the fair value, and therefore, the book value is used as the fair value.

(4) Long-term loans payable due within one year and (5) Long-term loans payable

The fair value of long-term loans payable is determined based on the present value of contractual cash flows which would be applicable to new loans payable under the same terms. In terms of floating interest rate loans payable, since it reflects the market interest rate in a short period of time, the fair value is approximately equal to the book value. Thus, the book value is used.

(Note 2) Financial instruments for which the fair value is extremely difficult to estimate

As tenant leasehold and security deposits in trust has no available quoted market price, and it is impracticable to reasonably estimate their future cash flows, their fair value is not disclosed.

7. INVESTMENT AND RENTAL PROPERTIES

MEL owns logistics facilities for leasing for the purpose of earning rental income. The book value, changes during the reporting fiscal period and fair value of the properties are as follows:

	Thousands of yen			
	For the period ended			
	August 31, 2020		February 28, 2021	
Book value (Note 1)				
Balance at the beginning of the period	¥	113,023,624	¥	112,466,230

Fair value at the end of the period (Note 3)	¥	123,615,000	¥	155,900,000

(Note 1) Book value is calculated by deducting accumulated depreciation from acquisition cost.

(Note 2) The increase for the fiscal period ended August 31, 2020 was primarily a result of the recognition of CAPEX which amounted 47,053 thousand yen. The decrease was primarily a result of the recognition of depreciation, which amounted to 604,448 thousand yen. The increase for the fiscal period ended February 28, 2021 was primarily a result of acquiring new properties for a total of 28,865,490 thousand yen. The decrease was primarily a result of the recognition of depreciation, which amounted to 773,496 thousand yen.

(Note 3) The fair value at the end of the period is determined based on appraised value provided by independent real estate appraisers.

Income and loss in connection with investment and rental properties are disclosed in “8. PROPERTY-RELATED REVENUES AND EXPENSES.”

10. NET ASSETS

a) Stated Capital

MEL issues only non-par value units in accordance with the Investment Trust Law. The entire amount of the issue price of new units is designated as stated capital. The Investment Corporation is required to maintain net assets of at least 50 million yen as required by the Investment Trust Law.

b) Distributions

	Yen	
	For the period ended	
	August 31, 2020	February 28, 2021
I. Unappropriated retained earnings	¥ 1,654,877,226	¥ 2,073,248,856
II. Distributions in excess of retained earnings		
Deduction from unitholders' capital	181,042,480	231,925,842
III. Distributions	1,835,807,445	2,304,980,703
(Distributions per unit)	(6,003)	(6,619)
Of which, distributions of retained earnings	1,654,764,965	2,073,054,861
(Of which, distributions in retained earnings per unit)	(5,411)	(5,953)
Of which, distributions in excess of retained earnings	181,042,480	231,925,842
(Of which, distributions in excess of retained earnings per unit)	(592)	(666)
IV. Retained earnings carried forward	¥ 112,261	¥ 193,995

Pursuant to the "Policy on the Distribution of Funds" as defined in Article 35, Paragraph 1 of the Articles of Incorporation, the amount of distributions shall be the amount which does not exceed the amount of profits but exceeds 90% of the distributable profit as defined in Article 67-15 of the Special Taxation Measures Act. Based on the policy, MEL declared distribution amounts of 2,073,054,861 yen and 1,654,764,965 yen for the fiscal periods ended February 28, 2021 and August 31, 2020, respectively. These amounts were equivalent to the maximum integral multiples of number of investment units issued and outstanding as of the end of each fiscal period. Based on the distribution policy as defined in Article 35, Paragraph 2 of the Articles of Incorporation, MEL shall make Surplus Cash Distributions (SCD), defined as distributions in excess of retained earnings, as a return of unitholders' capital, each fiscal period on a continuous basis.

Accordingly, for the fiscal period ended February 28, 2021, MEL declared SCD of 231,925,842 yen, as a return of unitholders' capital, which was the amount equivalent to approximately 30.0% of depreciation expense. For the fiscal period ended August 31, 2020, MEL declared SCD of 181,042,480 yen, as a return of unitholders' capital, which was the amount equivalent to approximately 30.0% of depreciation expense.

Structures in trust	¥	7,008	¥	7,008

13. INCOME TAXES

MEL is subject to Japanese corporate income taxes on its taxable income. The tax effects of temporary differences that give rise to a significant portion of the deferred tax assets and liabilities as of February 28, 2021 and August 31, 2020 are as follows:

	Thousands of yen			
	As of			
	August 31, 2020		February 28, 2021	
Enterprise tax payable	¥	11	¥	15
Total deferred tax assets		11		15
Net deferred tax assets	¥	11	¥	15

Reconciliations of major items that caused differences between the statutory tax rate and effective tax rate with respect to pre-tax income reflected in the accompanying statements of income for the fiscal periods ended February 28, 2021 and August 31, 2020 are as follows:

	For the period ended	
	August 31, 2020	February 28, 2021
Statutory tax rate	31.46%	31.46%
Adjustments:		
Deductible cash distributions	(31.45%)	(31.44%)
Other	0.04%	0.03%
Actual effective income tax rate	0.05%	0.04%

MEL has a policy of making cash distributions of earnings in excess of 90% of distributable income as defined in the Special Taxation Measures Act for the fiscal period to qualify for conditions, as set forth in the Special Taxation Measures Act, to achieve a deduction of cash distributions for income tax purposes. Based on this policy, MEL treated the cash distributions of earnings as a tax deductible distribution as defined in the Special Taxation Measures Act.

14. PER UNIT INFORMATION

Independent Auditor’s Report

The Board of Directors
Mitsubishi Estate Logistics REIT Investment Corporation

Opinion

We have audited the accompanying financial statements of Mitsubishi Estate Logistics REIT Investment Corporation (the Company), which comprise the balance sheet as at February 28, 2021, and the statements of income and retained earnings, changes in net assets, and cash flows for the six-month period then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at February 28, 2021, and its financial performance and its cash flows for the six-month period then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and the Supervisory Director for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern and disclosing, as required by accounting principles generally accepted in Japan, matters related to going concern.

The Supervisory Director is responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

A member firm of Ernst & Young Global Limited

- Consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances for our risk assessments, while the purpose of the audit of the financial statements is not expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation in accordance with accounting principles generally accepted in Japan

We communicate with the Executive Director regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Executive Director with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
